Dr. E. M. Witkin
State University of New York
College of Medicine
451 Clarkson Avenue
Brooklyn 3, N.Y.

Dear Evelyn:

Best wishes to you at your new station.

Here is some material for the next MGB. It may have been forwarded to you before, but it is all here for security.

Connie Thomas seems to be getting along quite well here- I think she will be starting fairly soon on some quite interesting problems in Salmonella, with the Vet. Sci. department.

Not much "gossip": Tom Nelson has moved back to Wisconsin, and can be addressed c/o Department of Botany.

Sincerely

Joshua Lederberg
